Your committee has striven to their best ability to raise the standard of the schools and to employ the best teachers only. How far they have succeeded is left to your judgment to decide. We would urge upon parents the importance of visiting the schools and thus showing their scholars and the teachers that they are interested in their work. It is also encouraging to us as members of the School Board. We are glad that some have attended the examinations, and hope that others in future will follow the example of these few.

We would also urge upon the District the need of more room for the Primary school, which is in a very crowded condition, and it is getting to be so much so that something must soon be done. The teachers and scholars require more room for health's sake and that the best results may be obtained. We, therefore, hope that you will seriously consider this matter and provide, either by a new building or in some other way, better accommodations.

MRS. A. C. GRAY,

W. G. AYER,

MRS. P. N. WATSON,

School Board District No. 5
